

APRIL

With Tornado Season around the corner, we wanted to inform you on what to do to keep you and your family safe:

In a house with no basement or an apartment: Avoid windows. Go to the lowest floor, small center room (like a bathroom or closet), under a stairwell or in an interior hallway with no windows. Crouch as low as possible to the floor, facing down; and cover your head with your hands. A bathtub may offer a shell of partial protection. Even in an interior room, you should cover yourself with some sort of thick padding (mattress, blankets, etc.), to protect against falling debris in case the roof and ceiling fail.

Easter Egg Hunt
